EXISTING PHOTO MAIN ENTRANCE BEFORE RENOVATION

NEW PHOTO MAIN ENTRANCE AFTER RENOVATION

The goal of this renovation was to plan and unify the spaces. The new front entrance includes an air lock and gallery space for showing the family art pieces. The quiet area required an addition for the proper planning and bedroom privacy. The main entertainment space was to small with low ceilings. All the trimwork including the doors are cherry. Many built-ins throughout are part of the overall design including the light fixtures on the exterior. See the results here and the following page.

Architecture is not just design but building relationships with our client's
